Was asked by FBI if he would testify that I was a bad security risk; after K told him his ~~own~~ views, he was no longer interested in his testimony.

- How does our foreign policy affect our democracy?

Meaning of DE case: Whether you can have a security system ~~and~~ like we have and the sort of policies we have — and still have democracy?

Issue: How do democracies deal with uncertainty? Freedom means your ability to engage in unpredictable behavior — that's what brings about change in the presence of negative feedback;

But gov acts to protect itself from  
this change

I asked McN why he didn't set up  
an OSS-like unit to look at military — to  
promote diversity of opinion.

(Carl Kaysan "spind on" USAF

EOU - Enemy Objectives Unit  
part of Treasury — gave separate  
opinions on bombing program, to Pres.)

K thinks McN intolerant of ambiguity;  
couldn't think of R + D in right way.

How does a society respond to uncertainty?

Democracy vs. security

Security is used for same purpose as  
advertising for firms:

to prevent need for change (K looks  
at advertising as defensive)
